

## AROUND THE WORLD WITH JACK HENEBRY

### The Michael Campbell Story

Recipient of the 2005, **Security Professional of the Year award**, **Michael J. Campbell** was born 1949 in Tekopuru, New Zealand. With his winning smile, great disposition and large collection of humorous hats and T-shirts... Michael quickly became an instant favourite meeting attendee. Michael was first introduced at the immensely successful 1998 WIN Conference, hosted by Winston Gregory in Canberra, Australia. Michael says "WIN members are the friendliest group of professionals he has ever had the pleasure of working with" and "The lifelong friendships made are well worth the dues".

Michael and his long time partner Sheryl, have between them, five children ages... 29,25, 24 and two at 21. They range in occupations from Dentist, Banker, Hairdresser, Roofer and 3<sup>rd</sup> year Dentist Student. Sheryl is a partner in a real estate business on Auckland's North Shore and manages her own office, one of three in her business.

At the recent Cancun meeting, Michael shared that he had visited the States on a work related matter and phoned the WIN offices to say hello to Carolyn Ward our Executive Director. He was immediately invited to come for a visit, which he accepted. Carolyn picked him up from the airport and

welcomed him into her home. They had a great visit, which included a tour of Washington, DC and Baltimore.

Michael and Sheryl want everyone to know that they thoroughly enjoyed the Cancun meeting and applaud hosts, Lloyd Davis and John Slagowski for seeing that we had such an exceptional venue. This meeting was everything you could ask for... and the people of Mexico have such a great attitude. We couldn't have been treated better. He feels, as we all do, much concern for those in the country that were devastated by hurricane Wilma.

Living in New Zealand, with it's excellent weather, affords Michael the opportunity to indulge in his interests, which are boating, diving and just about anything related to the beach. Of course, these sometimes take a backseat to his business, as it always comes first.

Sheryl

Michael is the Managing Director and principal shareholder of Advanced Investigations 2004 Ltd. The business was originally established in 1981 as Advanced Investigations Ltd., a professional agency to provide Investigation and Security Consultation services to Corporate, Legal, Government and Private clients and has recently been restructured.

Michael is an Ex CIB Senior Sergeant, New Zealand Police and has in excess of 36 years operational and command experience in Police and Private Investigation work. Advanced operates with a "team" of highly qualified, motivated, former New Zealand Police

Michael....a man of many hats

Detectives, each of whom are individually respected senior members of their profession with vast investigative and security experience following years of employment with the Criminal Investigation Branch of the New Zealand Police. These individuals contract their services to Advanced and their operational tasks are managed by the company.

Throughout New Zealand, Australia, the United States, Europe and South East Asia, Advanced has associates and agents with whom they are affiliated. The administration base offices are situated in the North Shore seaside suburb of Castor Bay.
